| <ul style="list-style-type: none">Lead organizational initiatives, manage club operations, and facilitate technical growth for engineering students.Drive engagement and foster a collaborative programming environment for aspiring software developers on campus. | |

PROJECTS

- **Game Discovery Application:** Built a responsive game discovery app utilizing React.js, Chakra UI, and the RAWG API for real-time game data.
- Built an e-commerce RESTful API with features like product listings, shopping carts, sorting and searching, orders, etc.
- **HostelMate (Multi-Hostel Management System):** Created a RESTful API implementing role-based access control (student, admin, and hostel manager) using Django. Engineered multi-tenancy features and integrated Paystack for secure payment processing, utilizing JWT for robust authentication. Which is still under development
- **Personal Developer Portfolio:** Designed and built a responsive portfolio website using Next.js to showcase technical projects, optimizing for SEO and fast load times.

SKILLS

Technical Skills: HTML, CSS, JavaScript, React.js, Next.js, Python, Django, Django Rest Framework, Git, Software Troubleshooting, UI/UX, Docker

Soft Skills: Clear communication skills, strong leadership skills, advanced analytical skills, good pressure management, team player.

Fun Activities: Video games, Reading, Anime, and nature walking.
